Re: Journeyman Classes for September 2018 through August 31, 2019

Please note that there are changes to the STAR program, enclosed you will find:

- A schedule of Journeyman classes through August 31, 2019;
- A Registration Form; with a new spot for your e-mail for easier communication; and
- Procedures for obtaining the Respirator Medical Evaluation and Fit Test (see back of Class Registration Form)

Minimum requirements to qualify for the STAR Bonus:

- **Work greater than 1000 hrs. for the contract year**
- **Attend, at minimum, 4 monthly Union meetings during the contract year**
- **Be in good standing with Local 10 membership by the end of contract year**

STAR bonus program:

- **Level I:** All required classes completed (regardless of completion date) plus 8 hrs. of (STAR) classes \$400
- **Level II (a):** All required classes completed within the last 3 years plus 8 hrs. (STAR) classes earns a \$300 kicker, total \$700
- **Level II (b):** If all required courses are NOT current in the last 3 years take 8 hrs. of Safety Refreshers or Participate in your employer's "Monthly Company Safety Meetings" totaling 8 hrs., plus 8 hrs. (STARS) classes for the \$300 kicker, total \$700
- **Level III:** If all required courses are current in the last 3 years and you have 16 hrs. of (STAR) classes you are eligible to take part in the Regional Training Center's "Apprenticeship Mentor Program" for an additional \$300 kicker
- **Total potential bonus \$1000**

Why the redesign?

Due to low participation rates over the last few years, the "STAR" program is at risk of being dis-continued going forward. As local 10 and District Council 5 members each of us has the opportunity to turn this trend around. The goal of the redesign is to strengthen "Union Solidarity" through **safety, mastery of skills and knowledge sharing**. This can only happen with your help and participation.

Contact the Regional Training Center to sign up for a "STAR" Program Orientation.

Additional Apprentices requirements:

- Zero unexcused absences from training classes
- Zero late MPR's
- Zero citations

Apprentice Mentorship Program:

- You must be, at minimum, third-year apprentice to qualify as a mentor (4000 OJT hrs and 288 classroom hrs).
- Mentors will be assigned a first or second year apprentice.
- Mentors will need to share experiences of how they have made a career in painting, share experiences and be open for questions.
- Having a mentor does not imply an apprentice needs help. Apprentices have proven they have the attitude, skill-set and knowledge to make it. Having your support will help guide them to success throughout their careers.
- Being a mentor can have a powerful impact on apprentices and journeymen alike. This program will take both the apprentice and mentor to come up with a solid, positive plan that will be presented to the RTC Coordinator that promotes professionalism, craftsmanship and positive outcomes.
- We are the next generation of paint craftsmen and women. The apprentices you impact today are going to be the leaders of tomorrow. As a mentor you will influence the future by taking responsibility to help a first or second year apprentice succeed.

Reminders:

- STAR hours (previously called elective hours) do not carry over to the new contract year. You will need to be current with all required classes to qualify for a bonus check on April 1, 2019.
- OSHA 30 is required for all commercial and industrial painters.
- If by 24 hours prior to the class fewer than six people have pre-registered, the class may be canceled and those who signed up will be notified by phone immediately. Be sure your contact information with us is up to date.
- You will be charged \$25 for classes you register for but do not attend (\$65 for medical screenings), and you will not be able to attend future classes until paid. You will NOT be charged a fee if you call and cancel at least 24 hours in advance of the class start time. **Unpaid missed class fees will disqualify a journeyman for the STAR award.**

**Procedures for Obtaining a Respirator Medical Evaluation and Fit Test
Painters Union Management Partnership (PUMP) Program**

Step 1 – Medical Evaluation

You must have had a respirator medical questionnaire and pulmonary function test within the last three years. If you already have a current medical evaluation on file at the Training Center, skip to Step 2.

If you haven't had a medical evaluation with an Occupational Health clinic within the last three years, you or your employer will need to request a voucher from the Training Center and then schedule an appointment. This program is paid for by the PUMP Program. Please note that if you fail to show up for a scheduled appointment, you will be charged \$50.

When the medical evaluation is complete, you will be given a Respirator Medical Certification letter explaining respirator limitations, if any. ***Make sure to bring this with you to the fit test appointment, and make a copy for your employer!***

Step 2 – Respirator Fit Test

Call the Regional Training Center and schedule a respirator training session and fit test. To schedule an appointment, phone 503-287-4856. Bring your Medical Certification letter with you or you will have to reschedule the fit test. The training session is a user-friendly computer program developed by the Oregon Health Sciences University and takes about one hour to complete.

When you have finished the computer training, you will be given a Fit Test. If this is your first fit test, a respirator will be issued to you. If you are returning for the annual training and fit test, bring your respirator with you.
